FOR IMMEDIATE RELEASE

BRENT BEDNAR JOINS PROFESSIONAL STAFF AT LINCOLN ORTHOPEDIC PHYSICAL THERAPY

Lincoln Orthopedic Physical Therapy (LOPT) announced this week the addition of Brent Bednar, MSPT, to the company's team of physical therapists. Mr. Bednar is a graduate of the University of Nebraska Medical Center in Omaha, Nebraska, where he received a Masters degree in physical therapy. Mr. Bednar pursued a career in physical therapy, "Because it is gratifying to see a patient get back to their life after an injury," Bednar said. "Through physical therapy, they now have the knowledge of how to work or play at a high level without re-injury or previous habits which led to their original injuries," he added.

Mr. Bednar joins the LOPT professional staff with six years of professional training and physical therapy work experience. Bednar's professional expertise provides a full compliment of physical therapy resources with specialization in the areas of sports injuries, post-operative rehabilitation, and lower extremity pain.

Lincoln Orthopedic Physical Therapy is Lincoln's largest free standing, out-patient physical therapy clinic specializing in orthopedic problems. Founded in 1982, the organization has three full service clinical locations to serve the Lincoln area. LOPT offers a complete array of rehabilitation and therapy services provided by nine licensed physical therapists, two certified in manual therapy, one occupational therapist, and access to clinical psychologists. LOPT is affiliated with all major medical providers and provides extended office hours from 7:00 AM to 6:00 PM, Monday through Friday.
